15 JUN 1972

MEMORANDUM FOR: Director of Logistics

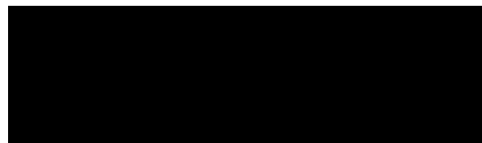

SUBJECT : FY 1974 Program Estimates

REFERENCE : Memo dtd 9 Mar 72 to DD/S fr D/L,
same subject

1. Paragraph three on page 4 of the reference is in error in that it states space made available in the Headquarters Building by vacating Office of Logistics units will be made available to the Office of Basic and Geographic Intelligence and, thereby, further consolidating DD/I components. It should read that this move will free-up 13,448 square feet of space in the Headquarters Building and provide for the reassignment of the Office of Communications from the Magazine Building.

2. The Printing Services Building Addition will enable the Agency to re-lease to the General Services Administration (GSA) the Magazine Building which has, over the past 5 years, been documented in Agency correspondence to GSA as substandard. This building addition results in an overall Agency net space increase of 4,873 square feet in the Metropolitan Washington Area. However, it should be noted that this building addition provides for a new consolidated storage requirement for the Office of Logistics of 16,000 square feet.

3. The space savings and the occupancy patterns to be affected with the accomplishment of the Printing Services Building Addition are shown on the two attachments.
